

# Kurt Jensen

Canton, MI 48187 | 734-892-3220 | [KurtJensen01@gmail.com](mailto:KurtJensen01@gmail.com) | [linkedin.com/in/kijensen01](https://www.linkedin.com/in/kijensen01) | [github.com/KurtJJensen01](https://github.com/KurtJJensen01)

## Education

**Master of Science: Artificial Intelligence**  
Wayne State University

Detroit, MI

**Bachelor of Arts: Computer Science | Minor: Digital Graphics and Design**  
Indiana Institute of Technology

Fort Wayne, IN

## Skills

**Languages & Frameworks:** Python, Java (Spring Boot), C/C++, C#, JavaScript (React), SQL, HTML/CSS

**Web & Development Tools:** REST APIs, Git/GitHub, Replit, Agile methodologies, SDLC, OOP, Full-Stack Development

**AI & Automation:** Large Language Models (LLMs), Prompt Engineering, OpenAI API, Make.com, AI Agents, Voice AI

**Machine Learning:** Classification/Regression, Ensembles (Bagging/Boosting), Logistic Regression, Decision Trees, k-NN, k-means, Cross-Validation

**Security:** confidentiality–integrity–availability (CIA), basic risk & continuity planning, sign-in/permissions (SSO, role-based access), encryption in practice (AES/RSA, TLS), network protection (firewalls, VPN), web attack prevention (SQL injection, XSS), common threats (DoS/DDoS, phishing), monitoring basics (SIEM, IDS/IPS)

**Database, Cloud & Other Tools:** PostgreSQL, SQLite, Microsoft Azure, Unity, Adobe Photoshop

**Certifications:** Learn CSS: Box Model and Layout, Learn CSS, Learn HTML, Microsoft Azure Fundamentals, Revature Software Engineering Pre-Training, Ignition Program

## Relevant Experience

**Software Engineer | AI & Automation**  
Access Benefits LLC

01/2025 to Current

- Developed and deployed full-stack web applications using **React**, **JavaScript**, **Python**, and **PostgreSQL**, handling all aspects of **front-end UI/UX design**, **back-end architecture**, **RESTful API integration**, and **cloud deployment** (e.g., **AWS**, **Render**).
- Engineered a fitness tracking platform featuring **user authentication**, **goal tracking**, and **personalized AI-generated plans**, powered by **OpenAI API** and integrated with a custom-built **AI assistant** for real-time guidance.
- Automated internal workflows using **Make.com**, and built **voice and chat AI agents** (GHL, Vapi) to streamline client operations—reducing manual work and improving **system performance**, **scalability**, and **efficiency**.

**PEGA Software Developer**

01/2024 to 06/2024

**Ford Motor Company (Brooksource's Elevate Program)**

- Developed and deployed the **GuestXP web application** to streamline dealership operations using **PEGA**, while collaborating with cross-functional teams across product, QA, and engineering in an **Agile** environment.
- Performed **full software development lifecycle (SDLC)** tasks including system design, backend logic configuration, **UI implementation**, **data integration**, QA testing, and end-user support—ensuring scalable and maintainable system functionality.

**Website Builder | AI Bot Programmer**  
Access Benefits LLC

05/2023 to 01/2024

- Designed, developed, and deployed **responsive full-stack websites** using **HTML5**, **CSS3**, **JavaScript**, and integrated **AI-powered chatbots** leveraging **Natural Language Processing (NLP)** to improve user engagement and automate marketing workflows.
- Led front-end and back-end development for Jack LaLanne's official website, ensuring **mobile-first design**, **cross-browser compatibility**, and a seamless **user experience (UX)** consistent with brand identity.

## Selected Projects

**Senior Lifestyle & Care App:** Full-stack wellness platform (multi-role auth, meds/appointments, messaging, subscription paywall). ([careharmony.quest](#))

**Personal Fitness & Nutrition App:** Auth, goals, AI workout/meal plans (OpenAI), real-time assistant, premium paywall. ([liquivida.app](#))

**Jack LaLanne Official Website:** Responsive full-stack site for desktop & mobile; cross-browser compatible and performance-optimized. ([jacklalanne.com](#))
